

Inter-agency
**TRAINING
PROGRAMME**

January – December 2019

(Last updated 05.08.19)

Introduction

East Riding Safeguarding Children Partnership (ERSCP) is committed to delivering high quality inter-agency training which supports professionals, volunteers and the independent sector in their work, complimenting individual agency training strategies. Our range of courses and briefings are designed to ensure that anyone working with children and/or their family members has the knowledge and skills they need to deliver effective services to ensure children are safeguarded and their welfare promoted.

In this programme you will see a mix of well-established and new learning opportunities all of which are informed by national legislation and guidance, local policy, procedures and guidance, and ERSCP Learning and Improvement Framework. Where possible courses are delivered in locality areas in order to promote inter-agency working and provide networking opportunities for the various agencies attending.

Take time to look at the course aims and learning outcomes available at www.erscp.co.uk to help you to choose a course relevant to the development of your skills and knowledge. Please discuss your learning needs with your line manager and ensure you have their approval prior to application.

Finally keep an eye on www.erscb.org.uk/training as additional course dates, current availability and new courses will be posted throughout the year.

How to book onto face to face training sessions;

- Visit ERSCP website www.erscp.co.uk (you do not need a login for access)
 - Select tab for 'Training'
 - Scroll down to required course
- *** **check pre-requisite requirements** ***
- Select 'apply to attend this course' - ensure alternative dates are selected when applying

Other courses are also available via E-Learning. For details and to apply for these courses visit the ERSCP website and follow the link for 'Training' then 'E-Learning'

Please note: there is a 7 working day processing turnaround for provision of login details to access e-learning courses)
